2.1 Introduction	5
2.2 Search for Statistics Reports	5
2.3 Viewing completeness of statistics data	6
3. Download Report.....	7
3.1 Introduction	7
3.2 Download Statistics Reports	7

1. Starting the WebClient

Open a browser and browse to the URL given by your administrator.

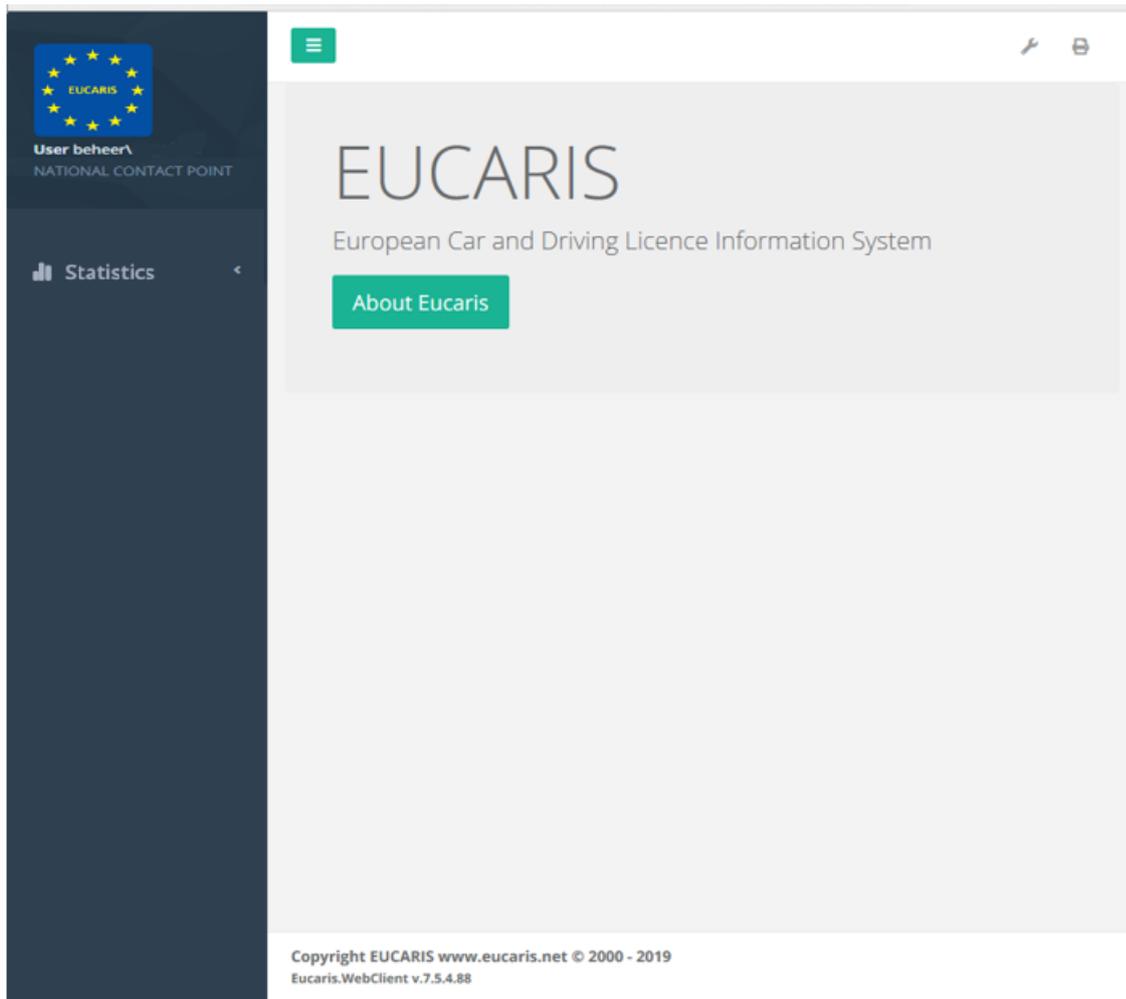

If you are not logged in automatically, the WebClient will ask for a username and password.

After a successful login the following start screen will appear:

On the left side a menu is shown with all the functions the user is authorized for.

The  button can be used to hide and unhide the menu.

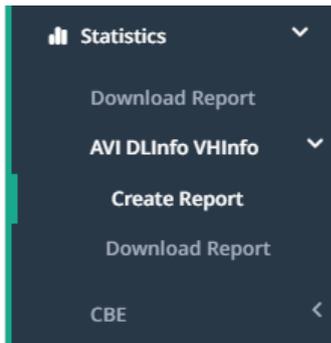

2. Create Report

2.1 Introduction

Before a VHInfo/DLInfo/AVI statistics report can be downloaded, the report needs to be created via menu 'Create Report'. This chapter describes how reports are created. The downloading of the reports is described in chapter 3.

2.2 Search for Statistics Reports

Choose 'Create Report' in the Statistics menu under menu item 'AVI DLInfo VHInfo':

The following screen is initially shown:

On this screen, the start and end date of the statistics period needs to be filled in. By default, the last passed month is selected.

2.3 Viewing completeness of statistics data

After submitting the search criteria via the 'Search' button, an overview is shown with information on completeness of the statistics data:

Show entries Search:

Select all Select none Refresh			
	Service name	Country	Completeness
<input checked="" type="checkbox"/>	AVI	NL - The Netherlands	Complete
<input checked="" type="checkbox"/>	DLInfo	NL - The Netherlands	Incomplete
<input checked="" type="checkbox"/>	VHInfo	NL - The Netherlands	Incomplete
	Service name	Country	Completeness

Select all Select none Refresh

Showing 1 to 3 of 3 entries (filtered from 33 total entries) Previous 1 Next

Create Report

In the example above the completeness status of country the Netherlands is 'Complete' for service AVI. For DLInfo and VHInfo, the status is 'incomplete'. Countries with statuses 'Complete' and 'Incomplete' are automatically selected.

When the status of a country is 'Unavailable', it is not possible to generate a report for this country.

When the 'Create Report' button is pressed, the selected reports are created. The following message is displayed:

✓ Report creation started

3. Download Report

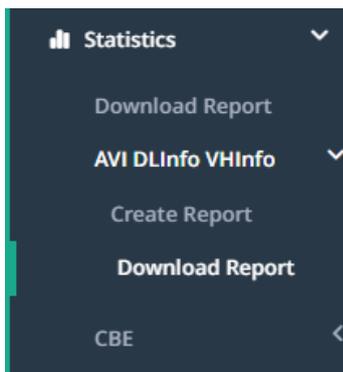

3.1 Introduction

When a report is created (see chapter 2), a background process is started which generates the reports. This may take some time.

Via the 'Download Report' menu, one can check whether the creation of report has finished. If it has finished, the reports can be downloaded.

3.2 Download Statistics Reports

Choose 'Download Report' in the Statistics menu under menu item 'AVI DLInfo VHInfo'.

The following screen is shown:

The screenshot shows the 'Download Report' page. At the top, there is a breadcrumb: 'Statistics → AVI DLInfo VHInfo → Download Report'. Below this, there is a 'Show 10 entries' dropdown and a search box. A 'Refresh' button is located above the table. The table has four columns: 'Creation date/time', 'Start date', 'End date', and a download icon. There are 10 rows of data. Below the table, there is another 'Refresh' button and a pagination control showing 'Showing 1 to 10 of 23 entries' and buttons for 'Previous', '1', '2', '3', and 'Next'.

Creation date/time	Start date	End date	
2024/01/09 08:56	2023/11/01	2023/11/30	
2024/01/09 08:53	2023/12/01	2023/12/31	
2024/01/09 08:52	2023/11/01	2023/11/30	
2024/01/09 08:13	2023/12/01	2023/12/31	
2024/01/08 16:31	2023/11/01	2023/12/31	
2023/12/21 13:37	2023/11/01	2023/11/30	
2023/12/21 13:07	2023/11/01	2023/11/30	
2023/12/21 12:59	2023/11/01	2023/11/30	
2023/12/21 12:54	2023/11/01	2023/11/30	
2023/12/21 08:29	2023/11/01	2023/11/30	

The screenshot above shows an overview of the reports which are ready to be downloaded.

In this overview, the creation date and the statistics period of the report are shown.

Each report can be downloaded via the download button: 

Depending on the type of browser, a zip file is stored on a default location or a file dialog windows appears in which a location can be selected.

The zip file contains a set of csv files.

For VHInfo and AVI, the following files are generated:

-  01-ParticipatingCountries-20231101-20231130-20240109095610.csv
-  02-VehicleMadeInMadeBy-20231101-20231130-20240109095610.csv
-  03-VehicleRequestTypeMadeInMadeByReport-20231101-20231130-20240109095610.csv
-  04-VehicleResponseResultsReport-20231101-20231130-20240109095610.csv
-  05-VehicleResponseWithSignalsMadeByMadeInReport-20231101-20231130-20240109095610.csv
-  06-VehicleRequestByReasonReport-20231101-20231130-20240109095610.csv
-  07-VehicleRequestsBySenderReport-20231101-20231130-20240109095610.csv

For DLInfo, the following files are generated:

-  01-ParticipatingCountries-20231101-20231130-20240109093912.csv
-  10-DrivingLicenceMadeInMadeByReport-20231101-20231130-20240109093912.csv
-  11-DrivingLicenceTypeMadeInMadeByReport-20231101-20231130-20240109093912.csv
-  12-DrivingLicenceResponseResultsReport.cs-20231101-20231130-20240109093912.csv
-  13-DrivingLicenceResponseWithSignalsMadeByMadeInReport-20231101-20231130-20240109093912.csv
-  14-DrivingLicenceRequestsBySenderReport-20231101-20231130-20240109093912.csv
